PROFESSIONAL SUMMARY

Motivated Software Developer with hands-on experience building web applications, REST APIs, and scalable software solutions through academic projects and internship experience. Skilled in frontend and backend development, database management, and modern web technologies. Passionate about solving real-world problems, writing clean and efficient code, and continuously learning new technologies to build high-quality applications.

SKILLS

Languages: Python · JavaScript · Java · C/C++ · PHP · Android

Frameworks: Django · Flask · FastAPI

Libraries: Pandas · Scikit-learn · Seaborn · NumPy

Web Technologies: HTML · CSS · JavaScript · React.js · Node.js · Next.js · Bootstrap · Tailwind css

SEO & Web Administration: Google Analytics · Google Search Console · XML Sitemap Management · Cron Job Configuration · Website Performance Optimization

Tools & Databases: MySQL · MongoDB · Elasticsearch · SQLite · Git/GitHub · VS Code · PyCharm · Postman · REST APIs · Linux · pytest · AWS EC2

Professional Skills: Problem Solving · Analytical Thinking · Attention to Detail · Team Collaboration · Time Management

EXPERIENCE

Python & Full-Stack Developer Intern May 2025 - July 2025
Codewyze, Jamnagar, Gujarat

- Contributed to the development of a job board platform by building backend services and full-stack web application features using Python, Flask, JavaScript, and Next.js.
- Designed and implemented RESTful APIs for job listings, user management, and application workflows, ensuring scalable and maintainable backend architecture.
- Integrated Elasticsearch for data indexing and search functionality, improving search accuracy, relevance, and query performance.
- Performed API testing and debugging using Postman, validating endpoint reliability and ensuring consistent application performance.
- Collaborated on frontend and backend components to deliver a responsive and user-friendly experience.

PROJECTS

Chatbot — AI Chatbot Application [GitHub Link](#)
Python · Ollama · Flask · HTML · CSS · JavaScript

- Built an intelligent chatbot integrating the Ollama language model API for context-aware natural language responses.
- Developed a Flask RESTful API to handle NLP requests, enabling efficient communication between the AI model and the frontend..
- Designed responsive user interface for seamless frontend-backend communication

Spam Detection Tool — SMS Spam Detection System [GitHub Link](#)
Python · Pandas · Scikit-learn · Naive Bayes · Seaborn

- Developed an ML model using Naive Bayes classification to detect and categorize SMS spam messages with high accuracy.
- Performed end-to-end data preprocessing and feature extraction using Pandas and Scikit-learn to optimize model performance.
- Built interactive visualizations using Seaborn to analyze spam patterns and present insights from the dataset.

Minimal WebHarvest — SEO Optimization Tool · Half Hackathon 2024 [GitHub Link](#)

PHP · MySQL · HTML · CSS · JavaScript · Bootstrap

- Developed a web-based SEO analysis application using PHP and MySQL, enabling users to evaluate and optimize webpage performance.
- Designed a responsive and intuitive UI using HTML and Bootstrap, ensuring seamless usability across all device sizes.
- Built and deployed the full-stack application during Half Hackathon 2024, delivering a complete working solution within a competitive time constraint

Note-Taking Application & E-commerce Platform [GitHub Link](#)

React js · Node js · Express js · MongoDB

- Developed full-stack Notes Management and E-commerce applications using React.js, Node.js, Express.js, and MongoDB, with separate frontend/backend architecture and persistent cloud-based data storage.
- Built dynamic, component-based React interfaces featuring real-time CRUD operations, product listing, filtering, cart management, and responsive dashboard functionality.
- Implemented mobile-responsive UI/UX with efficient state management and secure API integration, ensuring seamless performance across desktop, tablet, and mobile devices.

A C H I E V E M E N T S & P A R T I C I P A T I O N

- Participated in Half Hackathon 2024, Rajkot, and collaborated on developing a full-stack SEO analysis application within a competitive time-bound environment.
- Participated in Gujarat SemiConnect Conference 2026, Gandhinagar, gaining exposure to emerging trends, innovations, and opportunities in the semiconductor and electronics industry.

E D U C A T I O N

Diploma in Computer Engineering 2023 - 2026
Government Polytechnic, Jamnagar | Gujarat Technological University
Relevant Coursework: Data Structures & Algorithms · Database Systems · Software Engineering · Web Development · Operating Systems
